- No scent shampoo & body wash. (H.S. Scents, Scent Shield, etc.).
- Warm clothes (underwear, wool socks, etc.), Layering is best.
  - If you have trouble staying warm in the stands we highly recommend "The Heater Body Suit". [www.heaterbodysuit.com](http://www.heaterbodysuit.com). These are basically sleeping bags that have been modified for hunting and I can personally say that they make it easy and even comfortable to be out in 20 below weather all day.
- Adequate supply of hand warmers (minimum of 4 per day, we recommend the body size packs)
- Gloves & Boots (**boot blankets & hand muffs are recommended for November hunts**), also a light pair of wool gloves to wear inside of hand muff.

- \*\*Tree stand umbrella, very important for end of October hunting. Can also be used for late season hunts to keep snow off when in the tree stand.**
- Rifle hunters:** The outer layer of your jacket has to be red, orange or white (white is best) you can also wear the safety vests that they use for construction work. The law for colors does not apply to pants, pants can be whatever color you want. Hat or toboggan must be orange. Outer suit should be fleece or wool (something quiet). Camouflage orange or white is **illegal**.
